

**BBT2102 - Web Application Development**  
**CAT 2 & Project Assessment – Presentation**  
**Week of 8<sup>th</sup> July to 12<sup>th</sup> July**  
**Venue: HP Labs – STC 1st Floor**

**Sprint 1:**

- Demonstrate mastery of git commands.

**Sprint 3:**

- Demonstrate mastery of CSS applied to your graphical user interface.

**Sprint 7:**

- Demonstrate mastery of MySQL queries including Create or Drop a Database and Table; Create, Select, Update, and Delete record from the tables.

**Sprint 8:**

- Apply code reusable techniques using “required” and “include.”

**Sprint 9:**

- Demonstrate mastery the MySQL-PHP CRUD applied to your graphical user interface.

Prepare to answer 4 questions from the above concepts with confidence in under 3 minutes during the class session time allocated to you.

We recommend that all presentations are done physically in Strathmore – Internet connectivity and power outage will not be accepted as excuse.
